ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2017-0319; FRL-9971-34]

Agency Information Collection Activities; Proposed Collection (EPA ICR No. 1365.11); Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this document announces that EPA is planning to submit an Information Collection Request (ICR) to the Office of Management and Budget (OMB). The ICR, entitled: “Asbestos-Containing Materials in Schools Rule and Revised Asbestos Model Accreditation Plan Rule” and identified by EPA ICR No. 1365.11 and OMB Control No. 2070-0091, represents the renewal of an existing ICR that is scheduled to expire on August 31, 2018. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection that is summarized in this document. The ICR and accompanying material are available in the docket for public review and comment.

DATES: Comments must be received on or before **[INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2017-0319, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you

consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail*: Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

- *Hand Delivery*: To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

SUPPLEMENTARY INFORMATION:

I. What Information is EPA Particularly Interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What Information Collection Activity or ICR Does this Action Apply to?

Title: Asbestos-Containing Materials in Schools Rule and Revised Asbestos Model Accreditation Plan Rule.

ICR number: EPA ICR No. 1365.11.

OMB control number: OMB Control No. 2070-0091.

ICR status: This ICR is currently scheduled to expire on August 31, 2018. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal

Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Asbestos Hazard Emergency Response Act (AHERA) requires local education agencies (LEAs) to conduct inspections, develop management plans, and design or conduct response actions with respect to the presence of asbestos-containing materials in school buildings. AHERA also requires states to develop model accreditation plans for persons who perform asbestos inspections, develop management control plans, and design or conduct response actions. This information collection addresses the burden associated with recordkeeping requirements imposed on LEAs by the asbestos in schools rule, and reporting and recordkeeping requirements imposed on states and training providers related to the model accreditation plan rule.

Responses to the collection of information are mandatory (see 40 CFR parts 763, Subpart E). Respondents may claim all or part of a document confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 19.3 hours per response for schools, 140 hours per response for states, and 5.5 hours per response for training providers. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are local education agencies (LEAs, e.g., elementary or secondary public school districts or a private school or school system); asbestos training providers to schools and educational systems; state education departments or commissions; or state public health departments or commissions.

Estimated total number of potential respondents: 133,214.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.0.

Estimated total annual burden hours: 2,554,913 hours.

Estimated total annual costs: \$ 97,276,877. This includes an estimated burden cost of \$ 97,276,877 and an estimated cost of \$ 0 for capital investment or maintenance and operational costs.

III. Are There Changes in the Estimates from the Last Approval?

There is an increase of 67,509 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects a change in the methodology to calculate the number of schools with friable asbestos-containing materials (ACM); a revision to the life span of schools using average functional age to determine the remaining life of school buildings; and a change in the rate of removal of friable ACM. See the Supporting Statement for details. This change is an adjustment.

IV. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: December 5, 2017.
